

NEW PRODUCT

TS330-1600

The printer achieves printing speed of 69sqm an hour in Draft mode (600x600dpi, 2Pass) with 4-color ink set (B,M,Y,K) which is about 138 percent more than the speed of Mimaki's conventional model. In addition, MAPS4 (Mimaki Advanced Pass System 4) is claimed to reduce banding (horizontal stripes) during low passes

Two optional units of the 10kg ink tank unit and the mini jumbo roll unit are customized to be able to attach to TS330-1600.
